**The Emancipated Audience – Experiential
Curatorial Knowledge Production**

*Die Weiterbildung umfasst 1 ECTS Punkt.

*The executive education course comprises 1 ECTS point.

This course invites curators, artists, activists, educators, cultural workers, and those who are interested in critically engaging in thinking about post-representational, affective, and experiential transdisciplinary curatorial forms: a curation that allows for a shift from an on-looking audience towards activated and self-empowered protagonists; a holistic and relational – versus informational and representational – curation, for an emancipatory activation of the curatorial public.
